

# CHALLENGE 1!!!

Write a melody that moves just **by step**.

Listening 🎧 🎧 🎧

## Ode to Joy

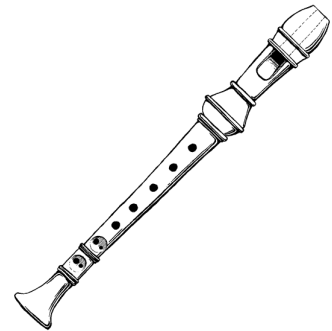

- Listen to this famous melody - you've probably played this one at some point! Almost every note is only one step above or below the note before it.

- [Here's another video of Ode to Joy.](#) Watch the coloured keys on the piano keyboard. Notice how it almost always moves from one key to another key which is right next to it.

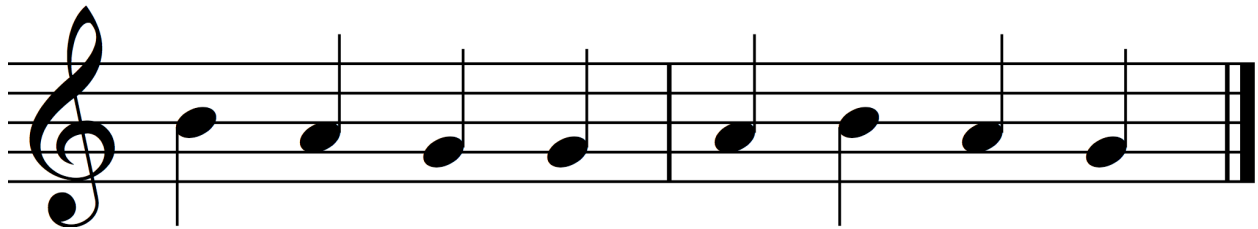

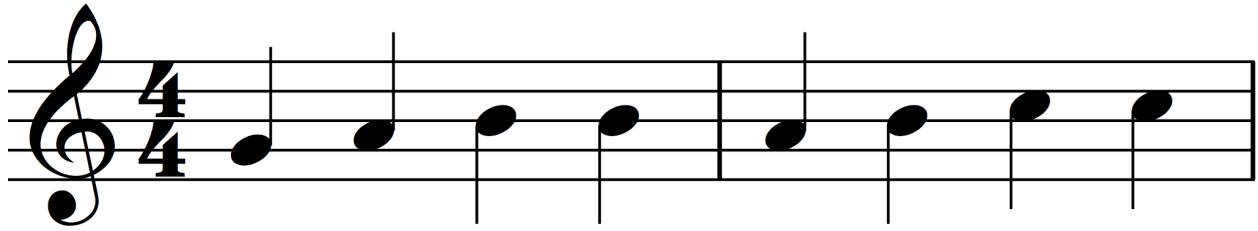

## Merrily We Roll Along

- Play along as you listen!
- If a note is on a **line**, the next one will be on a **space**.
- If a note is on a **space**, the next one will be on a **line**.

What a good stepwise melody looks like:

Here's a good stepwise melody:

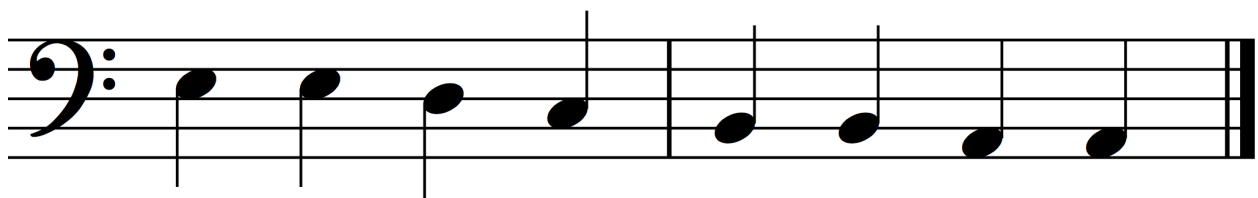

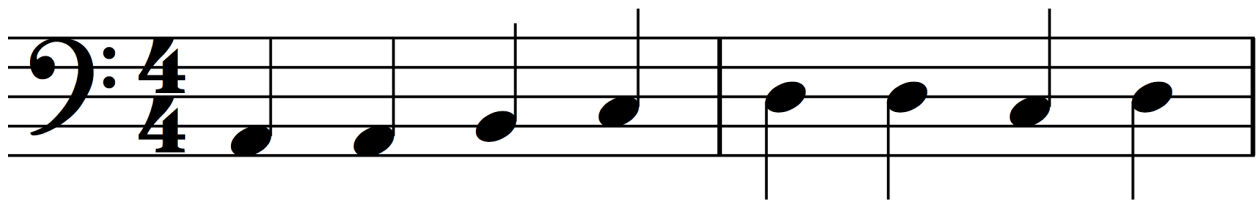

- Four bars
- 4/4 with four beats in each bar
- Notes are all a step apart

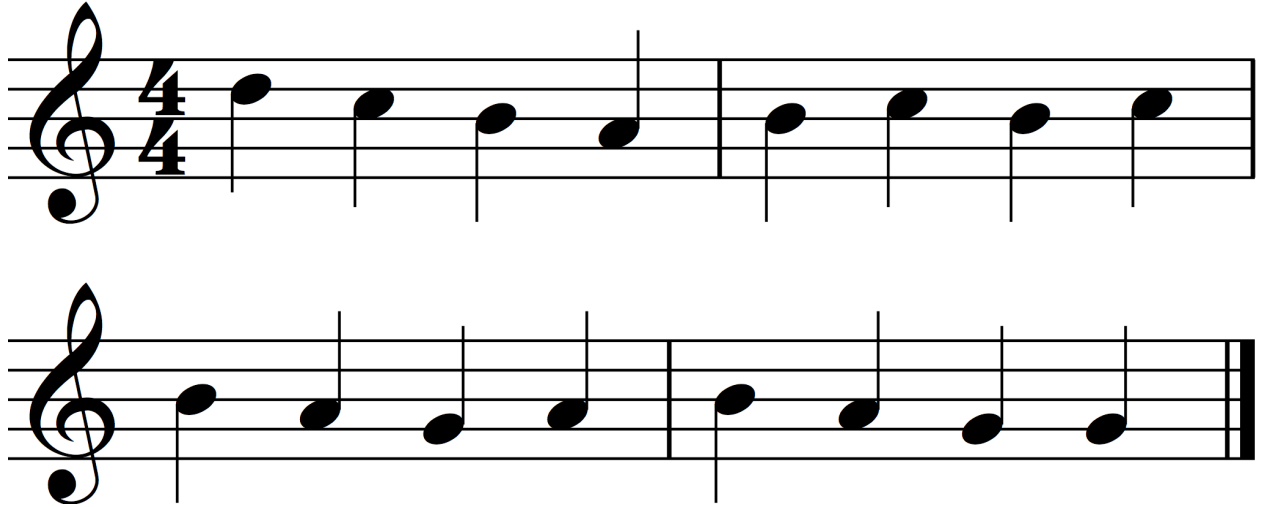

Try playing it on your instrument!

Here are **three more good ones** which you can try playing:

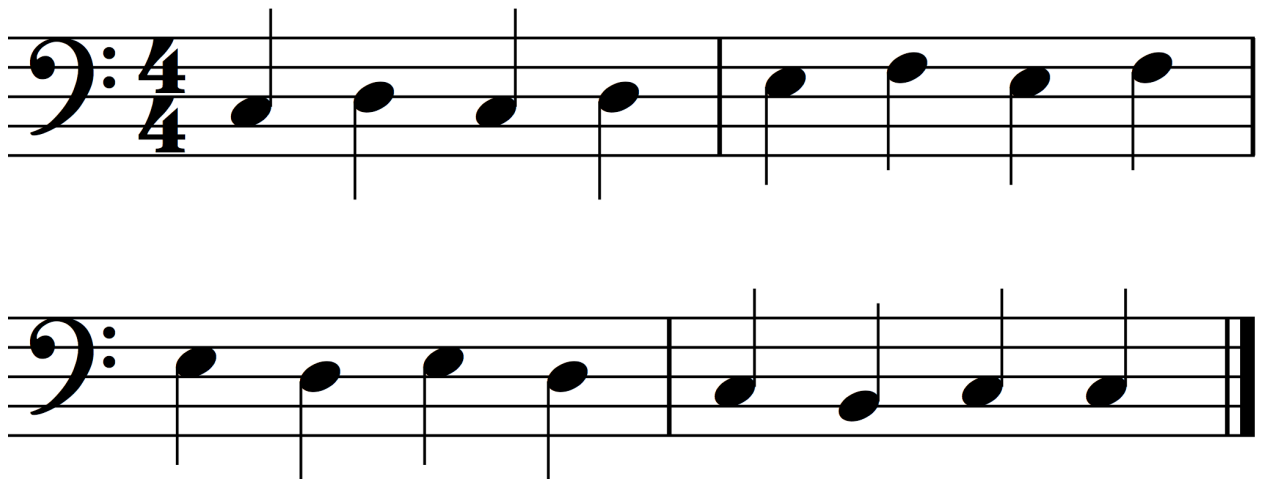

1

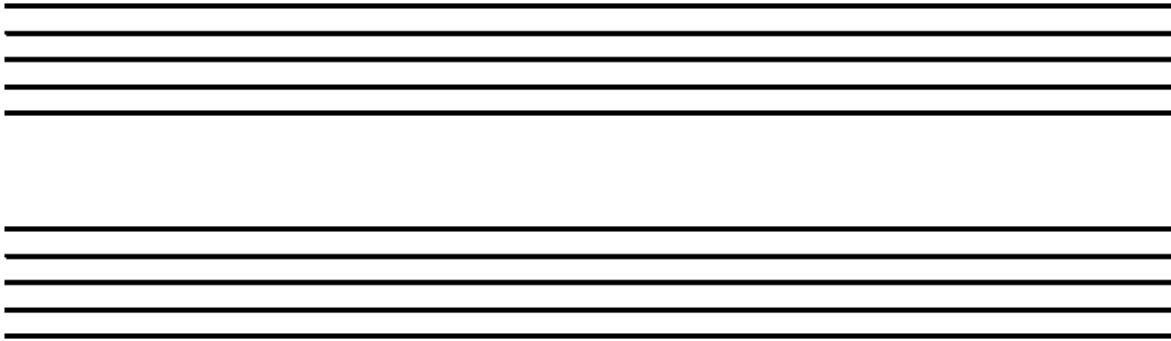

2

3

Write your own stepwise melody!

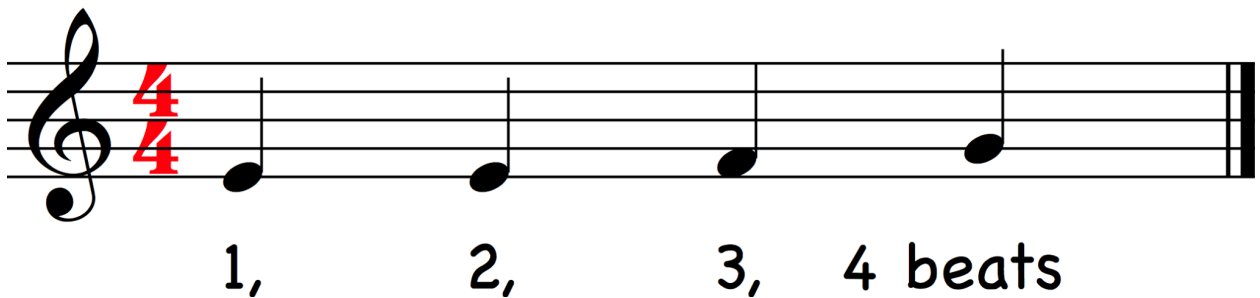

When you write it, tick the box  if it is:

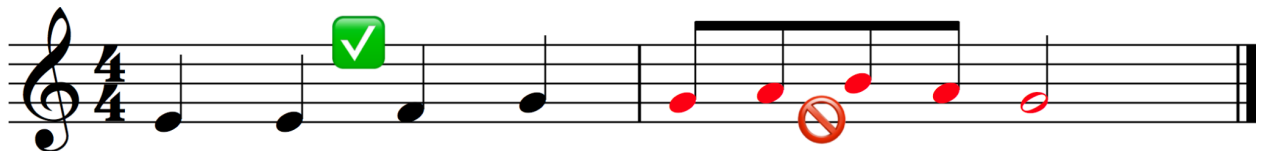

Four bars long

In 4/4 time

Just crotchets

Notes moving in steps, not jumps

Try writing some more - If you write more, you can get even more dojo points!!! ✨ ✨ ✨
